## Practice MCQ for Pharmacy Exams

Pharmatricks provide MCQ and Questions related to pharmacy concepts in this login portal. Students in the field of pharmacy or other medical streams can use MCQ related to any subject in D.Pharm and in syllabus from their phone. We will soon provide all types of MCQ including previous year questions for competitive exams. Users can take the test unlimited time to enrich their knowledge in the field of pharmacy.

## Our Aim

Topics in pharmacy are very volatile as students have to remember a lot of stuff like the name of drugs, mechanism, anatomy and various new concepts in their syllabus. The unlimited free attempt test are created not only to judge their skill on the topic but also to develop the habit of revision. The only thing that matters in a disciplined study is consistency. After Login, just click on the menu section to begin the test.
